## PROFESSIONAL PROFILE

Senior Front-End Developer and Dynamic Creative Developer with more than seven years of experience in HTML5 advertising, DCO support, creative development, ad operations, and campaign delivery. Experienced in building static, animated, dynamic, carousel, expandable, interstitial, skin, and native banner formats for global brands.

Strong in translating creative briefs into production-ready digital advertising assets, troubleshooting HTML banners and third-party tags, supporting ad-server workflows, and coordinating multiple projects under deadline. Recognized for technical quality, process management, team support, client communication, and continuous improvement.

## PROFESSIONAL EXPERIENCE

### Senior Front-End Developer

**WPP Production, Chennai**

**December 2021 – Present**

*Supporting HTML advertising production, platform workflows, and creative development for digital campaigns.*

- Supported the development and delivery of advertiser HTML banners for Campaign Manager 360 / DCM and Sizmek platforms.
- Worked on campaigns and banner support for Castrol, Sage, Walgreens, Workday, and HSBC.
- Developed working knowledge of the Hoxton in-house tool used to automate and build HTML and static advertising assets, as well as video ads.
- Applied SVG path animation techniques to live project work.
- Contributed to HTML5 banner troubleshooting, quality checks, and production support.

### Senior Dynamic Creative Developer – Account Management and Creative Development

**Dentsu (Paragon Digital Services), Chennai**

**August 2014 – November 2021**

*Delivered dynamic creative, rich-media, ad operations, account support, and quality assurance services for digital advertising campaigns.*

- Analyzed creative briefs, planned development workflows, and delivered dynamic HTML5 banners and campaign assets.
- Built static, animated, carousel, expandable, native, and other rich-media banner formats.
- Supported DCO profile and feed setup, dynamic linking, and tear-sheet preview generation.
- Managed campaign trafficking in CM360, DV360, and other publisher and ad-server consoles.
- Performed quality assurance for rich-media advertisements, including expandable, hover, interstitial, and skin formats.
- Troubleshot HTML banners, third-party tags, creative behavior, and delivery issues.
- Developed internal tools to improve ad operations workflows and team effectiveness.
- Coordinated internal team workflows, supported resource planning, and monitored quality and performance.
- Prepared campaign delivery reports, billing reports, client reports, and team summary decks.
- Supported client communication, project submissions, process management, and account requirements.

## SELECTED WORK AND PROJECT AREAS

**HTML5 Banner Development**
CREATIVE DEVELOPMENT
Developed and supported digital advertising creatives, including animated, dynamic, carousel, expandable, native, interstitial, and skin banner formats using HTML, CSS, JavaScript, JSON, jQuery, GSAP, and SVG.

**DCO and Campaign Operations**
AD OPERATIONS
Supported DCO profile and feed setup, dynamic linking, creative previews, campaign trafficking, ad-server implementation, QA, optimization, and reporting across major advertising platforms.

**Hoxton Workflow Automation**
IN-HOUSE PRODUCTION TOOL
Worked with Hoxton, an in-house production tool used to automate the creation and build process for HTML, static, and video advertising assets.

**Creative Showcase and Web Support**
FRONT-END DEVELOPMENT
Built and maintained creative showcase pages and related web experiences, with responsibility for troubleshooting, content support, and ongoing technical maintenance.
